

IRON  LYNX

EXECUTIVE SUMMARY

- Iron Lynx is an Italian motorsport lab which competes in multiple international series and includes the Iron Dames all-female racing project.
- The team is the overall winner of the recent 24 Hours of Spa, the first time Ferrari has won the event since 2004.
- The team will compete with three Ferrari 488 GTE EVO 2020 cars in the LMGTE Am class at the 24 Hours of Le Mans.
- Also entered are two Ferrari 488 GT3 EVO 2020 cars in the Road to Le Mans support races.
- In total, thirteen drivers will compete for Iron Lynx across the 24 Hours of Le Mans weekend.
- This document contains further information on the team and drivers.
- For more information, please consult the clickable hyperlinks and QR codes, or note the contact details at the end of the document.

1. WHAT IS IRON LYNX?

Iron Lynx is a motorsport lab, created in 2017 in Cesena (Italy) from the shared vision of Deborah Mayer, Claudio Schiavoni, Sergio Pianezzola and Andrea Piccini. The aim, now realised, is to form a professional racing team, strengthened by the extraordinary passion of its members and a special bond with Ferrari.

THE STORY

2. WHY IRON LYNX?

- Many automotive brands are linked to forces of nature - horses, bulls, birds, griffins, even snakes.
- The Lynx is fast, with large paws for stability and excellent vision.
- A racer must remain stable, and look ahead, to be fast.
- “Iron” was added to connect to the world of mechanics.

“We thought the Lynx was the perfect match for a racing driver - it’s very stable and has a good grip, and has got excellent long-distance vision. And when you try to teach someone, this is the first thing you teach. If you want to go fast, you need to look far ahead, you need to look for the next corner. So we thought that was the ideal visual for our team, the perfect image of a racing driver – Cool, fast, excellent vision and great grip.”

Andrea Piccini

3. WHAT DOES IRON LYNX DO?

Iron Lynx exists as a racing team, but also as part of a motorsport lab which includes the Iron Dames all-female racing project.

In addition to competing as Iron Lynx and Iron Dames with Ferrari GT and Tatuus Formula 4 cars across nine major international motorsport championships, the team offers complementary services to client racers and those who wish to participate at the very highest level of motorsport.

Key to the DNA of the team is the ability to find, encourage and promote talented young racers. The team works with the FIA Women in Motorsport Commission and two drivers – Maya Weug and Doriane Pin – from the FIA's *Girls on Track – Rising Stars* initiative now drive for Iron Lynx. In addition, the team's special relationship with Ferrari means that both Ferrari Driver Academy and Ferrari Competizioni GT drivers have seats with Iron Lynx across different championships.

2021

6. IRON DAMES

Iron Dames is a special project created and led by Deborah Mayer with the aim of supporting women in motorsport.

In 2021, the Iron Dames squads compete alongside the Iron Lynx cars in the 24 Hours of Le Mans, FIA World Endurance Championship, GT World Challenge Europe, European Le Mans Series, Michelin Le Mans Cup, Italian GT Endurance Championship, Ferrari Challenge Europe, Italian Formula 4 and ADAC Formula 4.

The project provides a touchstone of inspiration for the next generation of women who will choose to become involved in motorsport, whether as drivers or as team members such as mechanics, engineers or management. The project is recognised and supported by the FIA Women in Motorsport Commission.

IRON DAMES SUPPORT FIA'S GIRLS ON TRACK.

Iron Lynx has an agreement with Ferrari Driver Academy (FDA) and the FIA Women in Motorsport Commission to support the FIA Girls on Track – Rising Stars Programme. The partnership adds significant strength and weight to the programme which has been designed to identify and support female racing talent of the future, echoing the strides already taken by the Iron Dames project. Iron lynx is proud to be running the Formula 4 car of winner Maya Weug in this year's very competitive Italian Formula 4 Championship, and runner-up Doriane Pin in the Michelin Le Mans Cup.

7. LE MANS 2021

Iron Lynx comes to Le Mans fresh from claiming outright victory at the Spa 24 Hours. There could have been no finer preparation for the Le Mans 24 Hours, and the team will be building on its experience and momentum gained in this year's FIA World Endurance Championship as it prepares for the great race at La Sarthe.

Three Ferrari 488 GTE EVO 2020 cars are entered by Iron Lynx in LMGTE Am:

- #60 for Claudio Schiavoni, Paolo Ruberti and Raffaele Giammaria
- #80 for Matteo Cressoni, Rino Mastronardi and Callum Ilott
- #85 for the Iron Dames - Rahel Frey, Sarah Bovy and Michelle Gatting

In addition, two Iron Lynx cars will compete in the Road to Le Mans support races in the GT3 category:

- #8 for Rory Penttinen and Logan Sargeant
- #9 for Manuela Gostner and Doriane Pin

7. LE MANS 2021

Iron Lynx will use the highest-profile event on its competition calendar to launch a new campaign under the hashtag #RaceToInspire.

Team Principal Andrea Piccini takes up the story: *“This year has shown how international sporting endeavour can lift people’s spirits and inspire them to reach for more in their daily lives. With Iron Lynx and Iron Dames, we have a platform to engage and inspire, and Le Mans is the perfect place to show this.”*

Having thrilled viewers around the world with their last-gasp victory at Spa, the Iron Lynx cars and team overalls will all carry the #RaceToInspire message at Le Mans, as an echo of the team’s “never give up” spirit and the team’s capacity to encourage and develop talent behind the wheel, in the paddock and at the factory.

Similarly, the Iron Dames cars will also feature #RaceToInspire liveries, to underline further the example being set by the Iron Dames in fielding all-female squads in the world’s highest-profile endurance series, and to continue setting an example for young female talent throughout motorsport.

Last week the team debuted a special film – [watch here](#).

Special reveals and engagement activity will take place throughout the Le Mans weekend and fans are encouraged to follow Iron Lynx and Iron Dames on social media for the latest updates, exclusive content and opportunities to get closer to the team.

8. DRIVERS

- Car 60, 24 Hours of Le Mans
- Claudio Schiavoni
 - 14 November 1960

9. IL COVO - PADDOCK HOSPITALITY

- Covo [cò-vo] s.m.
 - Italian word for lair, den, a hidden place where wild animals take refuge to sleep, stay safe and raise their young.
 - By extension, an exclusive shelter where groups of people who share common interests or activities come together.
 - IL COVO. The new house on track by Iron Lynx.
- IL COVO offers a welcoming “home from home” when travelling and competing around the world. Drivers and guests will find an environment of relaxation and opulence in which to escape from the wider world, or the intensity of the track.
- Iron Lynx brings refinement, luxury, comfort and gastronomy to the paddock, no matter which series or category of motorsport.

IRON  LYNX

MOTORSPORT LAB

10. BEYOND RACING

- Iron Lynx offers a range of services for those new to the sport of motor racing.
 - Hospitality
 - Enjoy the show from the best seats: a uniquely privileged point of view in the team garages, with a clear vision directly into the pit lane. The experience includes hostess, pass entry, lunch with the drivers, full paddock access and grid walk. The whole experience can be tailor-made according to guests' requirements.
 - Getting on Track
 - From first principles on track, through to race licences and race entries, Iron Lynx can take the aspiring driver of any age and profile to a point where they can achieve their racing dream at full international level.
 - The service includes 1-to-1 coaching from some of the best drivers in the business, simulator training at the Iron Lynx base in Italy, testing and practice facilities and a full arrive-and-drive capability including international travel and opulent hospitality.

Simulator Facility, Iron Lynx HQ, Cesena, Italy

Iron Lynx offers tailored coaching options for client racers

11. SOCIAL MEDIA

- Iron Lynx has a dedicated team handling social media with the following objectives:
 - Raising the profile of Iron Lynx and Iron Dames; gaining reach and engagement and keeping fans informed
 - Working with drivers to provide extra content and extend their own reach
 - Achieving the objectives of the team's sponsors and stakeholders
- Iron Lynx and Iron Dames can be found on Instagram, Facebook, Twitter, Spotify, YouTube and now TikTok
- The acclaimed Iron Dames docu-series can be found [HERE](#).
